PITTSBURGS PLAY THE REDS;  
BOTH LOCAL TEAMS REST.

Leader's Manager Says New York Team Only One He Fears in Pennant Race.

Neither the New York nor the Brooklyn team plays ball to-day. The Giants are en route to Chicago, where they open to-morrow. The Brooklyn team leaves for Pittsburgh to-night.

CINCINNATI, O., May 6.—The Reds and the Pittsburghs played the last game of their present series here this afternoon. The fact that they have already won two games from the locals during their sojourn here has given the Pirates additional confidence, and before the game to-day they insisted that they would win again and by a larger margin than in either of the other contests. Manager Clarke of the Pirates insists that his team will have an easier time winning the pennant this season than they had last.

"We are so well fortified in all departments that only a railroad wreck can put the team out of it," said Clarke this morning. "At that we are anxious to get a commanding lead as soon as possible, so that we will not be compelled to go through the worry that we had up to the last two or three weeks of last season."

Manager McPherson of the Cincinnati club, has released Pitcher Swornstedt. He is the local boy who performed well

in the several games he pitched for the Reds last fall. Swornstedt held up the club during the winter on the strength of his work last season, but he has not been at all successful this spring. He was the second head among the Reds' twirlers to fall into the basket.

The members of the Pittsburgh team profess to fear the New Yorks more than any team in the league this season. "There is a bunch of hustling youngsters that are making it interesting for all the teams they meet," said Manager Clarke, "and it would not surprise me to see them come off this Western tour with a goodly number of scalps in their belts. The Giants seem to be good in all departments, and are the only team that we really fear."

Great preparations are being made for the formal dedication of the new Cincinnati grand stand on Friday of next week, when the New Yorks will make their first appearance of the season here. The Governors of Ohio, Kentucky and Indiana will be present, as well as a number of other notables of this and adjoining States. President Freidman of the New York Club also is expected here to take part in the festivities.

**First Inning.**  
Dobbs singled. Hoy struck out. Davis stole second. Wagner singled. Davis scored. Wagner out. Brown to Beck, trying to steal. One run.

**Second Inning.**  
Hoy walked. Dobbs sacrificed. Corcoran flied out. Hoy stole third. Beck flied to Zimmer. Crawford out. Beck to Steinfeldt. No runs.

YALE GOLFERS BEAT PRINCETON.

Tiger Team Started Off at Winning Clip, but Were Handily Beaten and White-washed in Tourney.

(Special to The Evening World.)

GARDEN CITY, May 6.—The sixth annual championship of the Intercollegiate Golf Association began this morning over the Garden City Golf Club links. The team championship is to be settled before the individual championship and only those are eligible for the latter who compete on the teams and the substitutes.

Yale and Princeton are playing this morning and the winners are to meet Columbia this afternoon, while Harvard tries conclusions with the University of Pennsylvania. The course is in superb condition and it is expected that many low scores will be made.

Yale and Princeton team started off at a winning clip and led by eight up at the first hole and at the ninth hole still by seven. The Yale team, however, was not so lucky in their opponents there, they were handily beaten at the finish, without a single point in the hole.

Hitchcock secured his lead before the turn as did Artie Field, although the latter lost it again, but regained it on the home green.

The summary of the match follows:

**SHARKEY SAILS TO-MORROW.**

Off to Prepare for His Fight in England with Rabbitt.

Ton Sharkey, who is matched to fight Gus Hudson, the Akron giant for twenty rounds, before the National Sporting Club of London during the coming week, will sail for England at 10 o'clock to-morrow morning on the steamer "Philadelphia." The American pugilist will leave for the other side next Saturday. He will be accompanied by his manager, Billy Madden, and Dr. J. J. Martin, the colored heavy-weight champion. Hudson and Martin will begin training for the fight.

## MANHATTAN 'VARSITY IS BEST COLLEGE TEAM OF YEAR.

MURPHY

Judging from the success Manhattan College has made thus far this season, she may well claim to have the best college baseball team on the diamond. The nine on Harlem Heights have defeated every college and university team they have met this year, and came within an ace of defeating the Giants in the opening exhibition game of the National League.

Manhattan is particularly strong in twirlers this season, having such strong men as McPhillips, who held the New Yorks down for seven scattered hits, and Callahan, Kerin and Murphy, all of whom have refused flattering offers from League teams.

"Marty" McPhillips is the star, and has all the curves and shoots of the great Mathewson. He has defeated Yale and pitched excellent ball against the Giants and Brookings. During the campaign season at the college "Billy" Keeler predicted that McPhillips would "make good," and he induced Manager Ed Hanlon to sign him for the Superbas, but McPhillips declined, as he wished to finish his college term and study medicine.

John Callahan is noted for his speed, good control and coolness at critical points of a game. Callahan has won

MURPHY

every game he pitched, and he, too, has come up to the expectations of Coach

"Jack" Kerin, as he is known to his

many friends on the campus, is a "cookery." He has the head of a pitcher who has played the game all his life; is cool and collected as a cucumber. It matters little to "Jack" how many are on bases, he is the same all the time, and gives great promise.

"Jim" Murphy is a very good pitcher, though this being his first year on the 'Varsity, he has won all the games he has pitched and succeeded in defeating the strong hitting Cuban X Giants, allowing them but six scattered hits.

Callahan is the receiving end of the Manhattan battery. He has caught every game this season, and to his head work may be attributed the success of Manhattan this year. He is an accurate and a fast base runner. Detroit and Boston of the American League have been looking for him, but his parents decided that he should finish college before playing professional ball. "Heads up" is his favorite expression, and when this signal comes from behind the bat the vital and ginger that it endures in the other players is plainly noticeable.

Manhattan's team on the whole is very fast, and with Callahan, Keeler, Kerin and Murphy in the infield, Keegan, Kilroy and Fitzhenry in the outfield, the combination is one that is expected to continue the good work that defeated Yale in the first two games of the season.
